Abhishek Singh

AI/ML & GenAI Developer | Python Developer

Kanpur, India | mabhishek101112@gmail.com | github.com/Abhishek-Singh-AS

SUMMARY

AI/ML and Generative AI developer who builds practical applications, from retrieval-augmented generation systems and deep learning models to speech AI and automation tools. Works mainly with Python, FastAPI and LangChain, and has a published research chapter on Hindi NLP.

SKILLS

Python, Core Java, Machine Learning, Generative AI, LangChain, APIs, SQL, OOPs

PROJECTS

DocSpider: RAG Document Q&A

Full-stack app that answers questions from uploaded documents using retrieval-augmented generation, with an LLM-as-judge evaluation system. Stack: FastAPI, LangChain, Groq, Pinecone, React.

Hindi Voice Cloning

Hindi voice cloning project that generates speech in a target speaker's voice.
github.com/Abhishek-Singh-AS/Hindi_Voice_Clone

Pneumonia Detection

CNN-based deep learning model that detects pneumonia from chest X-ray images.

Data Entry Automation

Python tool that reads Excel data, maps columns through a JSON config and automates entry, with a desktop GUI. Stack: Python, pandas, openpyxl, tkinter.

RESEARCH

Deep Learning-based Word Sense Disambiguation for Hindi Language using Hindi WordNet Dataset

Book chapter in *A Handbook of Computational Linguistics: Artificial Intelligence in Natural Language Processing*, Bentham Science (2023).

EDUCATION

Master of Computer Application (MCA)

08/2024 - 06/2026 | Chhatrapati Shahu Ji Maharaj University, Kanpur

PG Diploma in Data Science and Machine Learning

07/2022 - 05/2023 | Chhatrapati Shahu Ji Maharaj University, Kanpur

Bachelor of Arts (Economics)

07/2019 - 05/2022 | Chhatrapati Shahu Ji Maharaj University, Kanpur

CERTIFICATES

IIT Kanpur - Fundamentals of Data Science and Machine Learning
ISRO - Machine Learning
